

# Just A Bunch Of Crazy Hams

## JABOCH Event

### September 28th, 29th & 30th

We will be staying on an 80 acre parcel owned by the Native Sons of the Golden West under Doug's membership. There are a few buildings on site and the terrain is mostly rocky and heavy gravel.

Grant is planning to provide Dinner both Friday and Saturday night, most likely sausages / dogs for Friday and Fajitas on Saturday. Chris will be providing his world famous Sour Dough Waffles on Saturday morning. Everyone is on their own for lunches and you may want to bring food / snacks to share. Bring plenty of water.

The views are amazing including the view of Lotts lake below the site. Check the weather to ensure you are properly prepared as the JABOCH event will go on rain or shine.

The ARRL Field Day was an excellent time and many of us have wanted to go out again. What started out as a 1 day event has now turned into 3 days. Come join us if you can! We are leaving Friday, September 28th, at 10:15 from All the Best Video on the Skyway in Magalia. For those that want to go up Saturday instead, please touch base with Doug Poppelreiter; he will lead people in on Saturday morning so coordinate with him. To the left is the exit and the type of terrain to expect.

There are several different sites to choose from and it may depend on who is already on site by the time we reach the location.

We will have a wide variety of vhf, uhf and hf rigs and antennas including an end fed and off center fed hf antenna. An Amateur Extra will be assisting everyone on the hf waves and we plan to have some coordination on 6, 10, 20, 40 and 80 meter frequencies.
